

TRAVELING OUTSIDE THE US

First National Bank is always looking for ways to help you better protect your accounts. We are sure that you are aware of the growing Debit/Credit card fraud that has been occurring all over the nation. Therefore beginning in March of 2008 our new TRANBLOCKER system will go into affect.

- ✚ TRANBLOCKER allows First National Bank to block Debit/Credit card transaction use in any non US country.
- ✚ If you are a customer who works outside of the US please contact one of our friendly new accounts personnel and an exception will be placed on your card to enable continued use of your Debit/Credit card in the area in which you are working.
- ✚ When planning a vacation outside of the US simply contact one of our friendly new accounts personnel before you leave on your trip to let us know what country you will be traveling to so that you may have a stress free vacation with continued available use of your debit card.

Please contact New Accounts for further assistance in this matter, (337) 463-6231.
